

**Acknowledgement of Cooperative Development and Sharing of
Public Transportation Performance Data
Between Harrisburg Area Transportation Study (HATS) and
Cumberland-Dauphin-Harrisburg Transit Authority (CAT)**

September 21, 2018

On May 27, 2016, the United States Department of Transportation (USDOT) published in the Federal Register a final rule on metropolitan and statewide planning. This final rule requires Metropolitan Planning Organizations (MPOs) to practice Performance Based Planning and Programming (PBPP). As part of the PBPP requirements, States, MPOs, and public transportation agencies must agree upon and develop specific written provisions for cooperatively developing and sharing information related to transportation performance data, including the selection of performance targets and reporting on progress related to these performance targets. These targets must be identified in a Transit Asset Management (TAM) Plan completed no later than October 1, 2018 in adherence with Federal Transit Administration (FTA) regulations.

The Pennsylvania Department of Transportation (PennDOT) has developed a TAM Group Plan for all sub recipients operating public transportation receiving funding through FTA §5310 and/or §5311. In addition, FTA permits recipients of §5307 funding to elect to participating in a group plan if they are a Tier II TAM organization.

The Pennsylvania TAM Group Plan fulfills the PBPP requirement and encourages communication between transit agencies and their respective MPOs and RPOs. In accordance with the plan, the following actions take place that fulfill the PBPP requirement:

- PennDOT will provide asset performance reports to transit agencies by August 31 of each year that measure performance against established targets for the previous fiscal year.
- Transit agencies will review content for accuracy and confirm with PennDOT that information related to transportation asset performance has been received and is accurate.
- Transit agencies will share performance data with their respective planning partner by the end of each calendar year, or earlier as decided between the partners.
- New performance goals for the upcoming fiscal year will be established no later than September 15 of each year and communicated to transit agencies covered under the group plan.
- Transit agencies will continue regular coordination regarding the local Transportation Improvement Plan (TIP) and other planning initiatives of the local planning partner.

The above process is hereby acknowledged by HATS and CAT, through respective accountable executives.

Steven B. Deck, AICP, Executive Director
Tri-County Regional Planning Commission
